

Amvic ICF Training

Earlton Construction Solutions Inc. and Amvic Building Systems Inc. will be hosting an ICF Installation Training Session

The Installation Training Session is a one-day seminar to contractors, architects, owner-builders or homeowners interested in learning about construction using insulating concrete forms (ICF). Classes provide a mixture of lecture presentation and hands-on-demonstration of the basics of construction of residential and light commercial structures using insulating concrete forms (ICF).

The class covers all of the requirements & skills needed to construct the ICF shell of a typical 1-3 story residence or light commercial structure. The course is targeted at professionals, however prospective homeowners with a basic understanding of construction practices will be able to fully participate and benefit from the course

Date: March 12, 2013

Location: Earlton Arena (Small Hall)

Time: 8am to 5pm

Please RSVP by March 1, 2013
